

Music Instruction

Space Coast Christian Academy, 2018-2019

Instructor: Aryn Birge, Daniel Cox

COURSE DESCRIPTION

Music Instruction classes/private lessons are designed to meet a student at their current music ability and help them to progress towards proficiency. Our desire is to see all of our students advance in the talent God has given them. We believe that music is a key way in which we worship God; all students will be encouraged to incorporate their instrumental abilities in our local church or your's. The more opportunities to which you avail them, the better they will develop both confidence, platform presence, and a heart to serve.

COURSE REQUIREMENTS

- adequate practice time is required to remain in the music program. All students are required to do 30 minutes of practice three times per week at a minimum. Parents will be required to sign a practice sheet stating these conditions have been met.
- with the exception of the piano, students will be required to provide their own musical instruments
- we will seek to help maintain instruments as best we can, but in cases where instruments are broken or are in disrepair, the teachers will communicate to parents how these damages might be fixed
- books, music scores, and curriculum will be ordered upon receipt of payment from all students enrolled in the music program

GRADING

- Participation (25%) – students should exhibit a willingness to learn and participate in all musical performances
- Practice Times (25%) – students will progress to the level of their practice times
- Quizzes (25%) - *every other week*
- Tests (25%) - *once each month*
